Springfield, MO, October 28, 2026 – O'Reilly Automotive, Inc. (the "Company" or "O'Reilly") (***Nasdaq:*** ORLY), a leading retailer in the automotive aftermarket industry, today announced record revenue and earnings for its third quarter ended September 30, 2026.

3rd Quarter Financial Results

Brad Beckham, O'Reilly's CEO, commented, "I would like to thank our Team Members for their unwavering commitment to providing industry-leading service to each of our customers. Team O'Reilly's dedication was evident in our strong third quarter comparable store sales increase of 7.2%. This robust growth came on top of strong sales in the third quarter last year, resulting in a two-year stack of 12.8%, and was driven by share gains on both sides of our business, with double-digit growth in our professional business and mid-single digit growth in DIY. Our impressive top-line growth, coupled with a $39 million benefit from tariff refunds received during the third quarter, drove a 14% increase in our third quarter diluted earnings per share. We are extremely pleased with the continued ability of our Team to deliver industry-leading results through their hard work and unrelenting focus on our customers."

Sales for the third quarter ended September 30, 2026, increased $416 million, or 9%, to $5.12 billion from $4.71 billion for the same period one year ago. Gross profit for the third quarter increased 10% to $2.68 billion (or 52.4% of sales) from $2.44 billion (or 51.9% of sales) for the same period one year ago. Selling, general and administrative expenses ("SG&A") for the third quarter increased 8% to $1.58 billion (or 30.9% of sales) from $1.46 billion (or 31.1% of sales) for the same period one year ago. Operating income for the third quarter increased 13% to $1.10 billion (or 21.4% of sales) from $976 million (or 20.7% of sales) for the same period one year ago.

Net income for the third quarter ended September 30, 2026, increased $60 million, or 8%, to $786 million (or 15.3% of sales) from $726 million (or 15.4% of sales) for the same period one year ago. Diluted earnings per common share for the third quarter increased 14% to $0.97 on 812 million shares versus $0.85 on 853 million shares for the same period one year ago.

Year-to-Date Financial Results

Mr. Beckham concluded, "As a result of our strong year-to-date performance and expectations for the remainder of 2026, we are raising our full-year 2026 comparable store sales guidance to a range of 5.5% to 6.5%. We are also raising our full-year 2026 gross margin guidance to a range of 51.6% to 52.1% and our operating profit guidance to a range of 19.5% to 20.0%. These updates incorporate our strong third quarter performance, including the benefit from tariff refunds, and our margin expectations for the fourth quarter. Year-to-date, we have opened 173 net, new stores across North America and are on track to reach our goal of 225 to 235 net, new store openings in 2026. We remain very pleased with our new store performance and confident in the strength of the fundamental demand drivers in our business."
