

Campbell County, Wyoming, Modernizes Processes with Solutions from Tyler Technologies

From ERP to land record management, Tyler's solutions will bring efficiency to the county

PLANO, Texas (July 16, 2019) – [Tyler Technologies Inc.](https://www.tyler.com) (NYSE: TYL) announced today that it has signed an agreement with Campbell County, Wyoming, and its Joint Powers Authorities, CAM-PLEX Multi-Event Facilities and the Campbell County Fire Department, for several Tyler solutions, including its Munis® enterprise resource planning (ERP), ExecuTime Time & Attendance™, Document Pro™, Tax-Wise™, and Brazos™ eCitation solutions.

Campbell County and its Joint Powers Authorities were looking for a single vendor who could help them close gaps in their current processes. The entities recognized that Tyler could deliver a comprehensive suite of solutions that would modernize and create efficiencies across a broad range of departments, including financial, HR, document management, enterprise asset management, and land records management. In addition to realizing cost savings by selecting a single provider, the entities will also simplify third-party interactions by engaging with a single technology partner.

“We are very pleased to join with Tyler Technologies as the county, CAM-PLEX, and the Fire Department proceeds with Tyler’s ERP solution. Tyler is a recognized leader in the public sector software field. Their squad of professionals collaborating with our Project Leadership Authorities and Steering Committee make a highly enviable team. We look forward to a textbook migration and a long-term, productive relationship,” said Robert Palmer, commissioners’ administrative director, Campbell County.

Overall, Tyler’s solutions will modernize Campbell County and its Joint Powers Authorities systems and processes, eliminating manual paper processes throughout the organizations. Tyler’s Munis solution is an integrated ERP system that will manage all of the entities’ core functions, including financials, procurement, HR, payroll, and revenues, and work to break down departmental data silos, streamline processes, and eliminate duplicate data entry while improving overall financial transparency. In addition to using the Munis ERP solution, CAM-PLEX Multi-Event Facilities and the Campbell County Fire Department will also modernize their time and attendance processes by seamlessly integrating Munis with ExecuTime in addition to simplifying advanced scheduling for its employees, eliminating dual entry between timekeeping and payroll.

The Campbell County Clerk’s Office will use Document Pro’s fully integrated land and official records solution to streamline records management. The addition of this solution will help the county manage its land records within a single system designed to streamline the completion of daily tasks. The solution will eliminate manual recording processes and bring more robust search capabilities to the county. Within the Campbell County Treasurer’s Office, Tyler’s Tax-Wise solution will deliver accurate and efficient tax billing and collections, as well as revenue disbursement.

Finally, the addition of Tyler's Brazos eCitation solution will provide mobile citation solutions to the Campbell County Sheriff's Office. An electronic citation solution that can be used on laptops, tablets, and handheld cellular devices, Brazos is used to capture, process, and transmit data into public safety and court systems.

"Campbell County and its Joint Powers Authorities are taking an efficient approach in selecting multiple Tyler solutions to be used across various departments within their respective entities," said Chris Hepburn, president of Tyler's ERP & Schools Division. "The entities have recognized the benefits that come with selecting a single vendor to provide best-in-class solutions that can make daily processes easier for staff, which translates into a better constituent experience."

Tyler expects to work closely with Campbell County and its Joint Powers Authorities to integrate its solutions, helping them to become a truly connected community and allowing them to connect data, processes, and people. In fact, the city of Gillette (the county seat of Campbell County) is also a Tyler Munis user, and the county and city are eager to integrate the ERP systems to bring even more value to its residents.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other.
