

District of Columbia Superior Court Selects Tyler Technologies' Odyssey Case Management Solution

Odyssey to increase public access to information and data transparency

PLANO, Texas (Sept. 30, 2019) – [Tyler Technologies Inc.](#) (NYSE: TYL) announced today that it has signed an agreement with the District of Columbia Superior Court (DCSC) for a suite of Tyler's Odyssey solutions, including Odyssey Case Manager™, Odyssey Financial Manager™, Odyssey Judge Edition™, Odyssey Clerk Edition™, and Odyssey File & Serve™. After a competitive, nationwide procurement, DCSC selected Tyler's Odyssey suite to manage all case types within a single, intuitive platform.

Tyler's Odyssey solutions will be implemented in a software-as-a-service (SaaS) environment, marking the third major court to choose Odyssey as a Tyler cloud-hosted solution this year. Odyssey's system will bring several benefits to the court and the community it serves, including

- Converting manual processes to automatic processes
- Promoting increased public access to information, including the secure access of dockets and documents
- Enabling advanced case payment capabilities, such as ordering marriage licenses and paying fees and fines online
- Facilitating the exchange of information among local and federal agency partners through robust electronic interface initiatives including e-filing

"The DCSC is an innovative, problem-solving court which recognizes the benefits of selecting a comprehensive case management system," said Rusty Smith, president of Tyler's Courts & Justice Division. "We look forward to helping them work more efficiently, increase transparency for the community it serves, improve processes, and streamline communications through our Odyssey solution."

Tyler has implemented Odyssey in more than 1,000 counties across 30 states and serves more than 45% of the U.S. population. The solution accurately handles millions of court case transactions every week.

About Tyler Technologies, Inc.

Tyler Technologies (NYSE: TYL) is the largest and most established provider of integrated software and technology services focused on the public sector. Tyler's end-to-end solutions empower local, state, and federal government entities to operate more efficiently and connect more transparently with their constituents and with each other. By connecting data and processes across disparate systems, Tyler's solutions are transforming how clients gain actionable insights that solve problems in their communities. Tyler has more than 21,000 successful installations across 10,000 sites, with clients in all 50 states, Canada, the Caribbean, Australia, and other international locations. A financially strong company, Tyler has achieved double-digit revenue growth every quarter since 2012. It was also named to
