

Tyler Technologies Announces Successful Go Live with Forsyth County, Georgia, for EnerGov Solution

Tyler's solution streamlines online application and permit processes

PLANO, Texas (June 2, 2020) – [Tyler Technologies, Inc.](#) (NYSE: TYL) announced that Forsyth County, Georgia, has successfully gone live with Tyler's EnerGov™ civic services solution. The county has launched a new process for constituents to submit applications online for building permits, business and alcohol licenses, inspections, and land development plans.

Tyler's EnerGov solution makes it possible for Forsyth County to offer essential permitting and licensing services to the public entirely online. A few other benefits include:

- Increased automation and improved communication with the county's constituents
- Elimination of electronic submittal fees for those submittals that previously required one, such as commercial building plans and land disturbance permits
- Ability to review application or permit status and track its progression in real time
- Improved search capabilities for information on land developments, building permits, and business and alcohol licenses in the county
- Ability for business owners to renew licenses online

“We're pleased to announce a successful go-live for Forsyth County as it enhances its online services to its constituents,” said Greg Savard, general manager of Tyler's Civic Services business unit. “The county has streamlined its processes resulting in more efficient approvals for applications and permits, and we are confident that its constituents will find value in these improved services.”

Forsyth County is located in north central Georgia and is part of the Atlanta metropolitan area. It has seen rapid population growth in recent years, which may be attributed to its proximity to employment opportunities in nearby Alpharetta and northern Fulton County. Approximately 245,000 people live in Forsyth County. In addition to EnerGov, Forsyth County also uses Tyler's Munis® enterprise resource planning (ERP) solution, Odyssey® court case management solution, and iasWorld® solution.

About Tyler Technologies, Inc.
